Emergency Marking

# Evolve

**Evolve**  
architectural sign systems

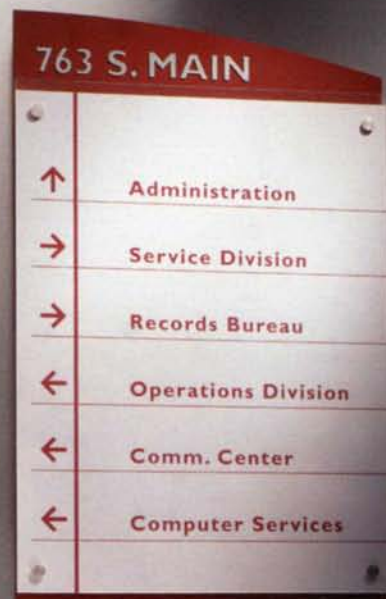

- With Evolve's integrated sign system, you can cover every sign requirement and satisfy regulatory, ADA, fire and health codes, emergency preparedness and special California requirements.
- Pick from a wide range of components, 50 different configurations and 400 laminates to create a custom sign solution that meets the needs of your building or facility.
- Personalize your office space using exciting colors and shapes or choose a laminate that compliments your décor.
- The Evolve components utilize paper or acetate inserts that you can produce on your own printer. This allows for easy on-site maintenance of the system and gives you the freedom to do custom graphics or messages on demand.

Special Surface Options

ADA Sign – Braille

Custom Insert Signs

Directory

**Evolve**  
architectural sign systems

- Your new wayfinding system will be complete and include: directories and directional signs, cubicle ID, room ID, office ID, restroom signs, flag mounts, overheads and fire/evacuation signage.

- Your new sign system should accent and ideally enhance the appeal of your building design. Evolve can match and enhance wall or floor colors, woodwork, door finishes, window frames, fabric, cabinetry or office furniture.

- Options: Mix and match for the look and function you need. This may include a notice holder, occupancy slider, dry erase message board, magnetic, cork or accommodate a business card and even photos.

Directional Signs

Facility Marking

Room Identification

# Optima Sign System

**Optima**  
sign system

- The classic Optima Sign System is available in 19 attractive colors to complement any color scheme.
- Meet ADA requirements to identify permanent rooms. Signs have raised numbers and letters that are bonded into the sign surface. Our specially designed Grade 2 Braille has a true dome shape, making it gentle to the touch without sharp edges. Braille signs meet Federal and California Braille specifications.
- Seton's identification solutions offer versatility, durability and long-term value.
