

PRODUCT DATA SHEET

Detectable Underground Warning Tape

- Underground tapes are 1000 ft rolls or made to spec
- All Underground tapes made to APWA approved colors to meet or exceed industry standards

Description: 5-mil tape with aluminum backing makes it easy to find underground assets using a non-ferrous locator. Wider tapes help locatability at greater depths.

Use: For non-metallic underground installations such as utility lines, PVC, and non-metal piping. The aluminum core allows detectability through a non-ferrous locator so the deeper the burial the wider the tape should be.

Adhesive Type: Self-Adhesive

Substrate Type: 2 mil clear film laminated to 1/2 mil Aluminum Foil Center Core

Compliance: Complies with APWA colors

Standard Legend Colors: Black

Standard Background Colors: Blue, yellow, green, red, orange

Thickness: .005 inches

Standard Sizes/Dimensions:	Width	Recommended Depth
	2"	up to 12" depth
	3"	for 12" to 18" depth
	6"	up to 24" depth
