

Keeping employees safe, organized and productive is no easy feat,

but having the proper signs and labels can help tremendously. Whether you want to clearly identify hazards, remind workers to utilize proper PPE or even help reduce the time spent searching for items, Brady Label Makers and Printers make it possible.

Why choose a Brady industrial label printer?

■ Unbeatable Performance

Industrial printers give you the ability to create tough, long-lasting labels that will survive virtually any type of environment. Your labels will last for years and resist smears, scuff and any other damage brought on by extreme workplace conditions.

■ On-Demand Functionality

Having the right printer allows you to tackle almost any label printing job. Industrial label printers make it possible for you to print your own barcode labels, safety labels, organizational labels or product & wire ID labels whenever you want.

■ Cost-Effective Solutions

Ordering the labels you need from a third-party vendor can be costly as well as time-consuming. Put the power of printing in your own hands and save time and money

Desktop

Brady Desktop Label Printers can handle almost any volume of sign and label making. With such a wide range of durable materials, output sizes and color options to choose from, Brady Desktop Label Printers make it easy to customize any type of safety or facility label. Use one printer for endless applications.

Portable

Brady Portable Printers provide users with robust labeling solutions on demand and on-the-go. These are lightweight and easy-to-use, making them the perfect addition to any workplace labeling system. Create custom identification messages whenever -- and wherever -- you need them.
