

Heavy Plastic Tags

- **Material:** Toughest tag on the market, 80-lb. pull strength exceeds OSHA standards
- **Resistance:** Fully laminated, resists grease, grime, chemicals and moisture
- **Grommet:** Heavy-duty 3/8" ID metal prevents rips so your tag stays put
- **Write On:** Write on, wipe off, erasable for easy re-use — save on constant replacements

Vinyl Tags

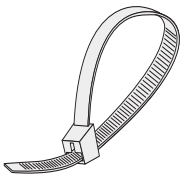

- **Material:** Extra durable to withstand extreme conditions
- **Resistance:** Weatherproof, resists water and chemicals in harsh environments
- **Grommet:** Resists tearing: metal eyelet won't rip
- **Write On:** Write on, throw away, one time use for temporary jobs

Heavy Cardstock Tags

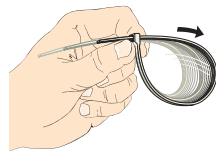

- **Material:** Durable 13-pt. cardstock
- **Resistance:** Heavy-duty paper for dry, indoor use
- **Grommet:** Strong, reinforced fiber patch resists tugs and tears
- **Write On:** Write on, throw away, one time use for temporary jobs

Fastening Methods

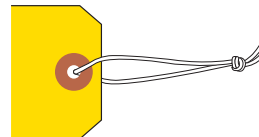

Permanently-Locking Fasteners

Permanent use, cannot be removed unless cut.

Releasable Tab Fasteners

Reusable and adjustable, locking/unlocking tab.

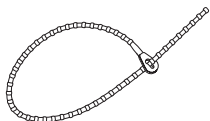

Elastic String

Stretches to provide a snug fit.

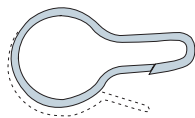

Beaded Chain

Attractive and strong.

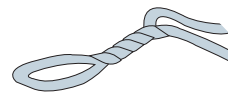

Reusable Fastener

Locks in place yet able to remove and reuse.

Chrome-Plated Pins

Tougher than wire, quicker than string. Reusable.

Stainless Steel Wire

Strong material, twist and stays in place.
