Brass Stencils

Description: Seton’s Interlocking stencils is an economical choice for marking crates, pallets, boxes, isles, floors and more. They are reusable and are available in 3 sizes; 2”, 3”, and 4” characters. Their application and assembly is quick and easy. Seton’s Interlocking Stencils are also solvent resistant and can be used again and again.

Material: 3030 Cartridge Brass
Thickenss: 28 Gauge
Melting Point: 1700°F

Ansi Letter Size Oilboard Pipe Stencil

Description: Seton’s Diagraph Stencil Board is processed with a special formula of double-boiled linseed oil, cured in our own plant and cut through the grain for extra rigidity. It lubricates gears with each cut, extending the life of your stencil machine, and resists ink absorption so the same stencil can be used over and over.

Use: Attach stencil to pipe and spray with aerosol paint and get a permanently marked pipe within minutes!
